Altec lansing life jacket 3 battery replacement

[Notice unusual marketplace activity?Report Back Panel 9 steps Battery 1 step Keep the good times rolling with the Altec Lansing IMW578 LifeJacket 3 Bluetooth Speaker. Packed with features including an IP67-rated waterproof, shockproof and snowproof construction, floatable and submersible exterior to listen to music in the water and a 50-foot range along with extra audio horsepower, how can you pass up the ultimate music listening experience? Voice Assistant Integrated Speakerphone will allow you to access Siri or Google Assistant through your LifeJacket 3. This speaker holds an outstanding 30 hours of battery life and built-in smartphone charger to make sure your speaker can keep up with you while on the go. Built with House Party Pairing, pair up to 50 speakers simultaneously for a bigger and better sound! The LifeJacket 3 also features a built-in universal mounting bracket for easy attachment to equipment and structures like bikes, kayaks, jet skis, and motorcycles so the fun never stops! *Model may vary among retailers Product Manual House Party Guide Model Number IMW578 Waterproof rating IP67 Wireless Range 50 feet Battery Life Up to 30 hours Included Accessories Cables Voice Assistant Integrated Speakerphone Access Siri or Google Assistant through your speaker I already got it apart and it is a single battery with no specs. Little bigger in diameter and longer than a AA battery.Model number IMW477 (altec lansing mini lifejacket 2)I've tried finding the info online but no dice.Speaker works, it is just that the battery wont hold much of a charge anymore. Lasts maybe an hour (supposed to last up to 10 hours).Edit: pic , says BCY 2540A on the circuit board on batteryPage 2 12 comments Image not available forColor: To view this video download Flash Player
